Dublin, OH | harshavk27@gmail.com | 614.593.1394

DESCRIPTION

Highly driven student with great programming, leadership, and communication skills, currently pursuing a degree in Computer Science and Engineering with minors in Business and Mathematics. I am seeking an internship during the summer of 2025. I am committed to working towards the company's goals and driving innovation by implementing my skills and experience.

EXPERIENCE

SCIENCE OLYMPIAD | PRESIDENT (1 YEAR), MEMBER (2 YEARS)

Aug 2021 – May 2024 | Dublin, OH

- Led the school team of 50+ members through Invitationals, Regionals, and States competitions. Organized the school's first-ever Invitationals competition
- Coordinated bi-weekly team meetings, actively registered for competitions and events, communicated with higher officials, and monitored events' progression
- Led budget sector through fee collection and payment for competitions and materials. Raised \$300+ from sponsors towards club advancement
- Handled club marketing. Promoted club at annual club fairs, created posters and flyers and arranged fundraisers
- As a member, competed in 3-5 out of 23 events (per year), including Robot Tour (engineered and programmed a robotic vehicle). Won several medals at Regionals, placed top 10 at States

KK SOFTWARE ASSOCIATES | MANAGEMENT INTERN

Jun 2023 – Aug 2023 | Dublin, OH

- Assisted managers in various duties, including workload distribution and progress report reconciliation
- Collaborated with employees and leaders to coordinate team meetings and validate timesheets
- Shadowed sourcing and billing managers to continue developing leadership and communication skills

DANIEL WRIGHT ELEMENTARY | COMPUTER SCIENCE MENTOR

Feb 2024 – May 2024 | Columbus, OH

- Mentored elementary school kids with various programming skills, including Java and HTML
- Helped interested students with coding small-scale projects, and get an overall better understanding of programming

PROJECTS

HIGH SCHOOL I/O HACKATHON TEAM | TEAM LEAD

November 2023 | Hilliard, OH

- Created **TruthTrakkr**, a program implemented in Python that uses machine learning to analyze a given article and determine its validity, sentiment, and if it was written by a human or bot
- Presented application through an engaging video highlighting the program (in a website form). Won 1st place out of 100+ teams

MY HOMEPAGE

Sep 2024 | Dublin, OH

- Created a personal homepage implemented in HTML, CSS, and JavaScript. Includes my background and other personal projects
